I faxed this to my computer fax and resent it to you. My computer fax received all the pages from my fax machine.

I am at a loss to explain why the last two transmissions to the patent office fax machines showed completed transmissions on my fax machine but only a single page was received by the USPTO fax machines.

I would appreciate a confirmation call that you received this. 703-242-1247 Thanks very much for your assistance.

Sir:

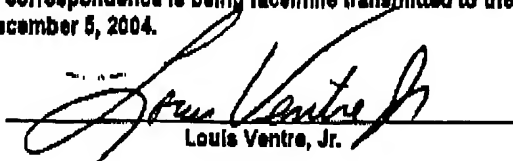

**Applicant's Reply to USPTO Notice of Non-Responsive Amendment**

The USPTO office action states that the USPTO received only a single page of applicant's four page reply sent by facsimile on October 5, 2004, which responded to the September 30, 2004 USPTO office action requiring an election/restriction. Attached is the fax receipt showing receipt by USPTO of 4 pages transmitted on October 5, 2004.

A duplicate of the signed October 5, 2004 transmission is enclosed.

**Certificate of Transmission under 37 CFR 1.6**

I hereby certify that this correspondence is being facsimile transmitted to the United States Patent and Trademark Office on December 5, 2004.
